PROFESSIONAL SUMMARY

Technology leader and two-time founder with 8+ years scaling products from zero to production across fintech, crypto, and enterprise. Currently Managing Director of Trinetry Infotech, building agentic-AI products and providing fractional-CTO leadership to SMEs. Former Chief Technological Architect at Times of India, where I owned the AI Bharatverse interactive-AI platform end to end. Founder and CTO of CryptoPrism, operating on-chain analytics that process 1B+ datapoints daily across 100+ assets with automated ML trading signals. I pair deep full-stack and ML engineering (Python, TypeScript, GCP/BigQuery) with product strategy, hiring, vendor selection, and cloud-cost discipline. Google Cloud certified as Professional Cloud Architect, Professional ML Engineer, and Professional Data Engineer.

CORE COMPETENCIES

Technology Strategy & Roadmap • Engineering Team Building & Hiring • Cloud Architecture (GCP / AWS / Azure) • AI/ML Productization • Data Platform Engineering • Fractional-CTO Advisory • P&L & Vendor Management • Agile Delivery • Startup Fundraising & Go-to-Market • Security & Compliance

PROFESSIONAL EXPERIENCE

Managing Director — Trinetry Infotech Pvt Ltd

Pune, India | Nov 2025 – Present

- Founded and lead a technology company building AI-powered SaaS products and providing fractional-CTO consulting to SMEs.
- Direct product, architecture, and delivery across two platforms — Pratyaksha (AI cognitive-journaling) and GyanMarg (EdTech LMS).
- Architected an agentic-AI ERP/CRM that replaced manual SME invoicing, inventory, and client-outreach workflows.
- Set technical strategy, vendor selection, and cloud-cost discipline across all client engagements.

Chief Technological Architect — Times of India

Remote | Apr 2025 – Sep 2025

- Owned end-to-end architecture and delivery of AI Bharatverse, an interactive AI platform for Indian history, in a 6-month fractional engagement.
- Led a React + LangChain stack from concept to launch, defining the conversational-AI backend and data model.
- Translated executive vision into a shippable roadmap and delivered on schedule with a lean team.

Founder & CTO — CryptoPrism

Remote | Apr 2024 – Present

- Built and operate a full-stack crypto-intelligence platform spanning on-chain analytics, ML trading signals, and automated trading bots.
- Architected a BigQuery pipeline processing 1B+ datapoints daily across 100+ assets at a 99.9% SLA.
- Deployed FastAPI microservices on Cloud Run serving analytics at sub-50ms p99 latency.
- Integrated Google TimesFM for 100-asset ML signal generation with automated Binance execution.
- Own the full stack end to end: data engineering, ML, backend, React dashboards, and CI/CD on GitHub Actions.

ML Engineer, Credit-Card Fraud Analytics — Barclays

Edinburgh, UK | Sep 2023 – Mar 2024

- Built and maintained production ML pipelines for credit-card fraud detection across the cards portfolio.
- Fine-tuned models for real-time transaction anomaly detection and fraud scoring over large-scale financial datasets.

Project Manager — Isha Foundation

Coimbatore, India | Jan 2020 – Apr 2021

- Led end-to-end development and launch of the "Kari and the Lost Shrines" mobile game — 50,000+ downloads, 4.5+ rating.
- Shipped the "Mandala Support" gamified feature for the Sadhguru app — 4.2M engagements across 120 countries in 42 days.

Co-Founder — Gamerz Nation Esports

Pune, India | Sep 2017 – Nov 2019

- Scaled the venture to 7 franchises in 18 months with \$100K turnover in the inaugural year; broke even within 12 months.

EDUCATION

MSc, Financial Technology — Strathclyde Business School, Glasgow, UK | 2022 – 2023 (Merit; dissertation topper, 82/100)

BCom, Commerce — Brihan Maharashtra College of Commerce (BMCC), Pune, India (Dean's List)

CERTIFICATIONS

Google Cloud Professional Cloud Architect • Google Cloud Professional ML Engineer • Google Cloud Professional Data Engineer • AWS Data Engineering • Microsoft Azure Data Infrastructure & Pipelines • PMP (PMI) • CSPO (Scrum Alliance) • Bloomberg Market Concepts

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL

Cloud & DevOps: Google Cloud Platform, Cloud Run, AWS, Azure, Docker, GitHub Actions, CI/CD

Data & AI: BigQuery, ETL/ELT pipelines, LangChain, LLM integration, Google TimesFM, ML deployment, agentic AI

Backend & Web: FastAPI, Node.js, React, Next.js, PostgreSQL, Redis
